Response to Office Action

Sir:

In response to the Office Action dated November 6, 2002, the Applicant respectfully requests that the above-identified patent application be amended as follows.

Clean Version of AmendmentsIn the Specification:On pages 9-10, bridging paragraph

a1
— The general operation of system 10 at the transmitter end is shown in the flow chart of Fig. 7, at steps 90, 92, 94, 96, 98, 100, 102, and 104. A communications link between transmitter 15 and receiver 17 is initiated with a conventional 3-way handshake, as described above. Transmitter 15 then determines the round-trip time over network 12. The manner in which these times can be determined is described in greater detail below. A sequence of packets 20 is then sent to receiver 17, and a round-trip timer 36 and re-transmission time-out timer 38, is set for each packet. When
